If you have not received an email for Compustam cloud, do not forget to look in the folder of junk email or spam and put the email address in your address book so that if you have lost your login data it will just appear in the inbox
If you are logged in in Compustam cloud you will find a comprehensive manual there

Note: At outlook.com the registration 99% comes in junk e-mail

Compustam 2020 en Compustam Cloud

Compuclub has started Compustam Cloud and is connected to Compustam for Windows from version 2017 and higher.

Only with Compustam version 2020 you can view pedigree data in the Cloud.

At this moment it is therefore not yet possible to update data in the Cloud with the browser and link it back to your Compustam version 2020 on your PC.

All additions to your Compustam must first be processed on your own PC where Compustam version 2017 is installed. By uploading with the button in Compustam, the data is updated in the Cloud.

So at the moment we are fully committed to a new development with Compustam Cloud.

In Compustam Cloud you will therefore constantly encounter improvements and / or additions during the year and years afterwards.

No rights can be derived from our website.

Upload family tree data to Compustam cloud

Important to know if you upload your family tree data to Compustam cloud each time the uploaded family tree data is overwritten
So do not forget to make regular back-ups of your family tree data in Compustam 2020 on eg a USB stick. Do not know how to do that
check the Compustam 2020 manual

Compustam 2020 en Compustam Cloud

From March 2017 **Compustam-Cloud** appeared on the internet. This version of **Compustam-Cloud** is an official Compuclub product and with this Compuclub takes the next step in the future in modern pigeon racing in 2020

Although Compustam for Windows can be found on more and more computers, it is not surprising that Compuclub is looking for other ways to market the 'total program for pigeon sport'. More and more people want to spend a lot less money on a laptop, but still have enough opportunities to, for example, to use the internet, (postal) pigeons to do administration or to listen to music.

Chromebook and Android tablets

Chromebook and Android tablets are cheaper alternatives for a full-fledged laptop. In addition, current versions of Compustam for Windows do not work on Chromebook and Android tablets. With **Compustam-Cloud**, this works. If you upload your pigeon data and / or family tree data to **Compustam-Cloud** via Compustam (version) 2017, you can log in to **Compustam-Cloud** and restrict your data.

Mobile phones and ipads with internet access

Compustam Cloud

Of course with login code you can view limited pigeons online D.w.z. pedigree and view your pigeon data. Start limited first so you can upload but you can not modify data online. If it goes wrong then every user can reload the data online and everything is there again. (so no claim if it goes wrong) We will not stop the development and keep innovating on standalone as well as the cloud version.

With the aim to be able to offer the cloud version in as many languages as possible, and to make the exchange of pigeon data even easier.

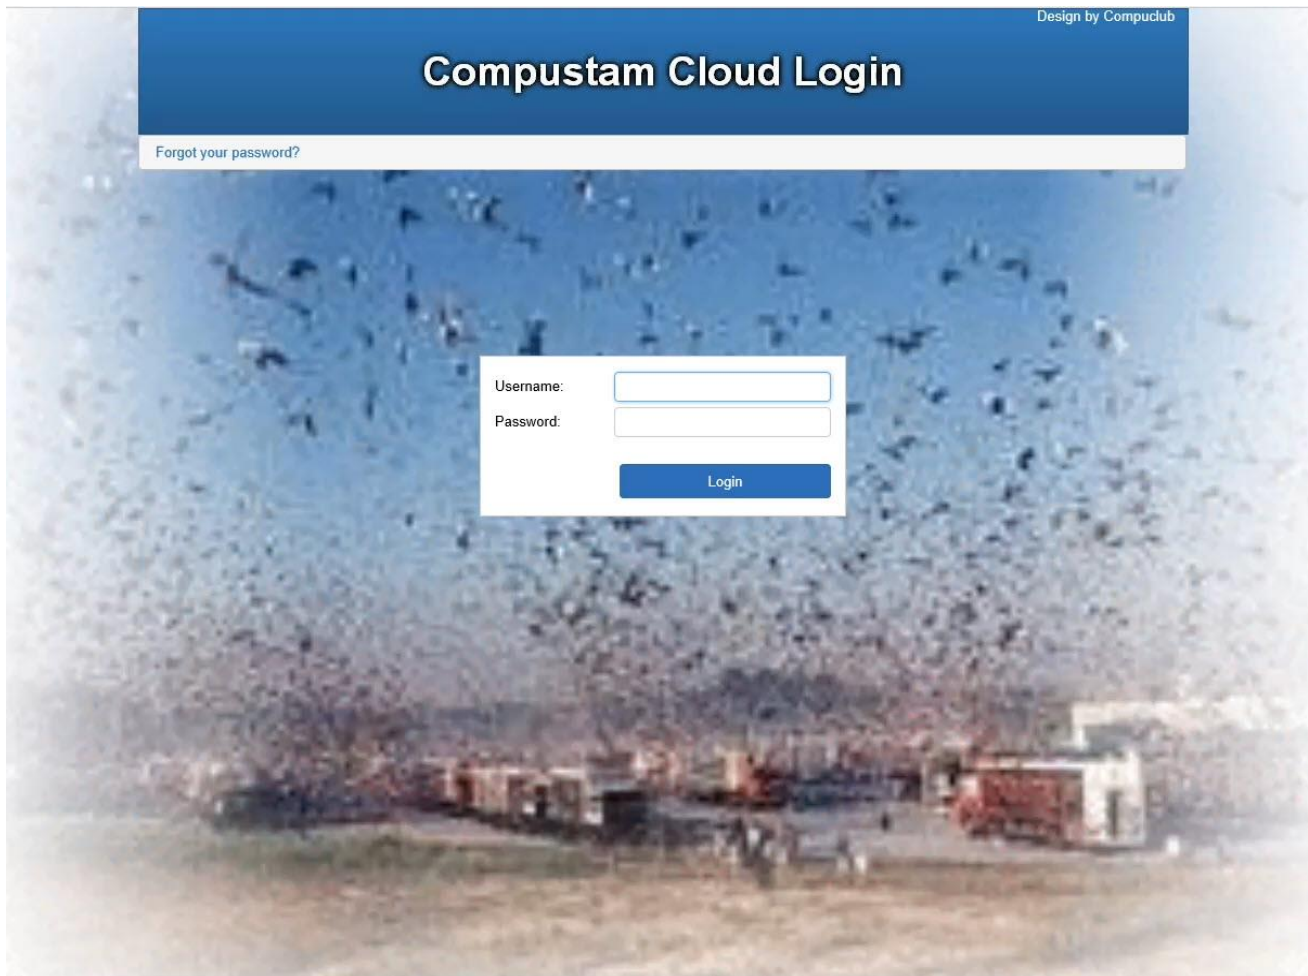

Not only customers among themselves but also with your association and with the performances you have achieved.

Different web browsers

It is intended that Compustam-Cloud will work with all common web browsers because Compuclub not only Compustam-Cloud with operating systems Windows 7 through 10 works but also on ipads and tablets and Crome OS

Compustam Cloud login

To use Compustam Cloud you go to compustam-cloud.com and log in with your username and password.

Compustam Cloud Account

A Compustam Cloud account is enhanced by Compuclub and this money only if you have a license for Compustam version 2020 and then you can from the Companam version 2020 on your PC or laptop Upload your family tree data to Compustam-Cloud

You have provided on www.compustam-cloud.com when purchasing new or upgrade from version 8 or lower. Every year you pay a low amount for Compustam-Cloud in the form of a subscription

Compustam Cloud Account Expired

Compustam Cloud Mainmenu

If you enter your username and password and click on log in, the Compustam Cloud main menu appears

This main menu currently consists of the following menu items Pigeons File Users Data Contact about Compustam Cloud and logout

The menu item Pigeons File is very similar to the menu item Pigeon-Pigeon data you know from the PC version of Compustam

The menu item User Data is very similar to the menu item Settings-User data you know from the PC version of Compustam

Upload family tree data to Compustam cloud

Note: Make sure you have your pigeon data in order in the PC version of Compustam because if you encounter an error online you can't change it online this is only possible in the PC version of Compustam afterwards you have to upload the data again to Compustam cloud

Compustam Cloud Pigeons

If you click on Pigeons File you will see your pigeons that you have uploaded to Compustam Cloud

Top left you see a number of input boxes just like in Compustam 2020. If you want to look up a pigeon, click in the second box and enter the last 2 digits of the year and in the third box the number then click on the search ring button and the entered pigeon is found The number of selected pigeons is behind number of pigeons

Pigeoncode	Here you can select a pigeon code and then click on select										

Compustam Cloud Pigeons Find Ring

The screenshot shows the 'Compustam Cloud - Pigeons' interface. A circular callout highlights the 'Find Ring' button and the search input fields. The interface includes a table of pigeon data with columns for Country, Y-Ringno, Sex, Pigeon, and Race. The 'Find Ring' button is prominently displayed above the search fields.

Find Ring

E.g. for ring number 18-1234567 you fill empty in the 1st box 2nd box 2018 and the third box 1234567

E.g. German ring number 15412-17-34567 1st section 15412 2nd section 2018 and the third section 34567

If you have entered the year and ring number of the pigeon, do not forget to click on **find Ring** and the completed ring number will be displayed. The number of selected pigeons is behind number of pigeons

fill-instruction	
fill-instruction	If you enter only the year in the 2nd box, all pigeons will be with that year shown after you clicked on Search Ring
	If you enter one or more digits in the 3rd box, all pigeons will be entered With the completed figures shown
End number	If you enter one or more numbers here, all pigeons will be entered with The filled in figures after you clicked Search.
Sex	Gender choice Dove Hen or Unknown Click on select
Pigeoncode	Here you can select a pigeon code and then click on select

Upload family tree data to Compustam cloud

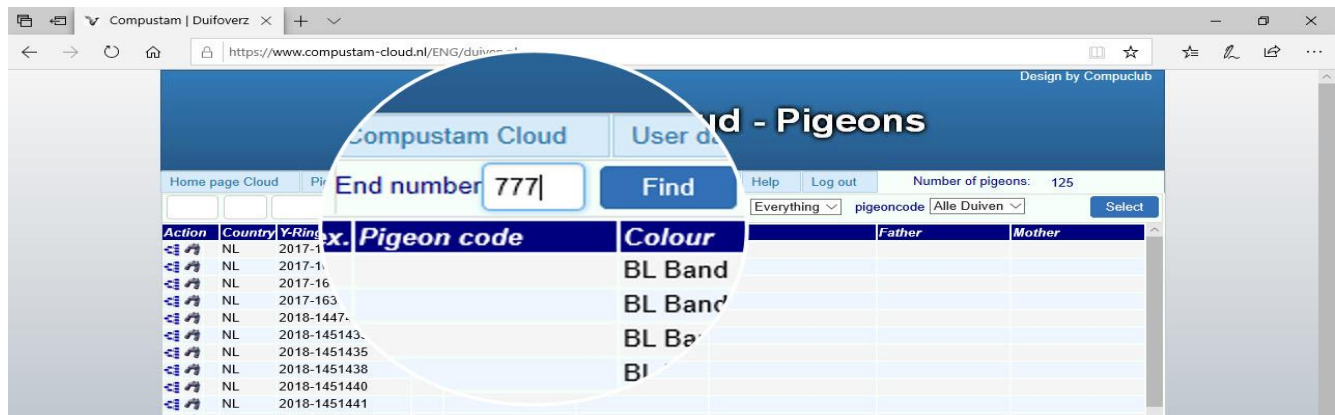

Important note: If after uploading to Compustam Cloud you discover a pigeon that has incorrectly entered the ring number, **you can't change the ring number**. The entire ring number of the pigeon should be deleted in the Compustam version on your PC or laptop and added again to the correct ring number

Note: the deletion and re-adding must be done with your Compustam version on your PC or laptop and then you need to upload your data again to Compustam Cloud

Compustam Cloud Pigeons file end number

End number:

If you enter a random number of the ring number here, all pigeons are shown with these final marks.

If you have entered the final mark, do not forget to click on **Find** and all ring numbers ending in the series of numbers you have entered will be shown

Find the pigeon you need and make the choice of what you want to see (**cup Action**) If you want to see the Pedigree of the pigeon click on the Do you want to see the data of the relevant pigeon click Do you want the photo of see the relevant pigeon click You The number of selected pigeons is behind number of pigeons

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="button" value="Find Ring"/>	End number <input type="text"/>	<input type="button" value="Find"/>	Sex <input type="text" value="All"/>	pigeoncode <input type="text" value="Alle Duiven"/>	<input type="button" value="Select"/>
<u>fill-instruction</u>	If you enter only the year in the 2nd box, all pigeons will be with that year shown after you clicked on Search Ring							
	If you enter one or more digits in the 3rd box, all pigeons will be entered With the completed figures shown							
<u>End number</u>	If you enter one or more numbers here, all pigeons will be entered with The filled in figures after you clicked Search.							
<u>Sex</u>	Gender choice Dove Hen or Unknown Click on select							
<u>Pigeoncode</u>	Here you can select a pigeon code and then click on select							

Upload family tree data to Compustam cloud

Important note: If after uploading to Compustam Cloud you discover a pigeon that has incorrectly entered the ring number, **you can't change the ring number.** The entire ring number of the pigeon should be deleted in the Compustam version on your PC or laptop and added again to the correct ring number

Note: the deletion and re-adding must be done with your Compustam version on your PC or laptop and then you need to upload your data again to Compustam Cloud

Compustam Cloud Pigeons File Sex

Sex:

If you select for cock or hen here, all cocks or hens are shown and if you select unknown, all pigeons with no gender are shown here. You can find your young pigeons if you have not entered a gender yet and another way is find ring

Find the pigeon you need and make the choice of what you want to see (**cup Action**) If you want to see the Pedigree of the pigeon click on  the Do you want to see the data of the relevant pigeon click  Do you want the photo of see the relevant pigeon you click 

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="button" value="Find Ring"/>	End number	<input type="text"/>	<input type="button" value="Find"/>	<input type="text"/>	Sex	<input type="text" value="All"/>	pigeoncode	<input type="text" value="Alle Duiven"/>	<input type="button" value="Select"/>
----------------------	----------------------	----------------------	--	------------	----------------------	-------------------------------------	----------------------	-----	----------------------------------	------------	--	---------------------------------------

<u>fill-instruction</u>	If you enter only the year in the 2nd box, all pigeons will be with that year shown after you clicked on Search Ring
	If you enter one or more digits in the 3rd box, all pigeons will be entered
	With the completed figures shown
<u>End number</u>	If you enter one or more numbers here, all pigeons will be entered with
	The filled in figures after you clicked Search.
<u>Sex</u>	Gender choice Dove Hen or Unknown Click on select
<u>Pigeoncode</u>	Here you can select a pigeon code and then click on select

Upload family tree data to Compustam cloud

Important note: If after uploading to Compustam Cloud you discover a pigeon that has incorrectly entered the ring number, **you can't change the ring number.** The entire ring number of the pigeon should be deleted in the Compustam version on your PC or laptop and added again to the correct ring number

Note: the deletion and re-adding must be done with your Compustam version on your PC or laptop and then you need to upload your data again to Compustam Cloud

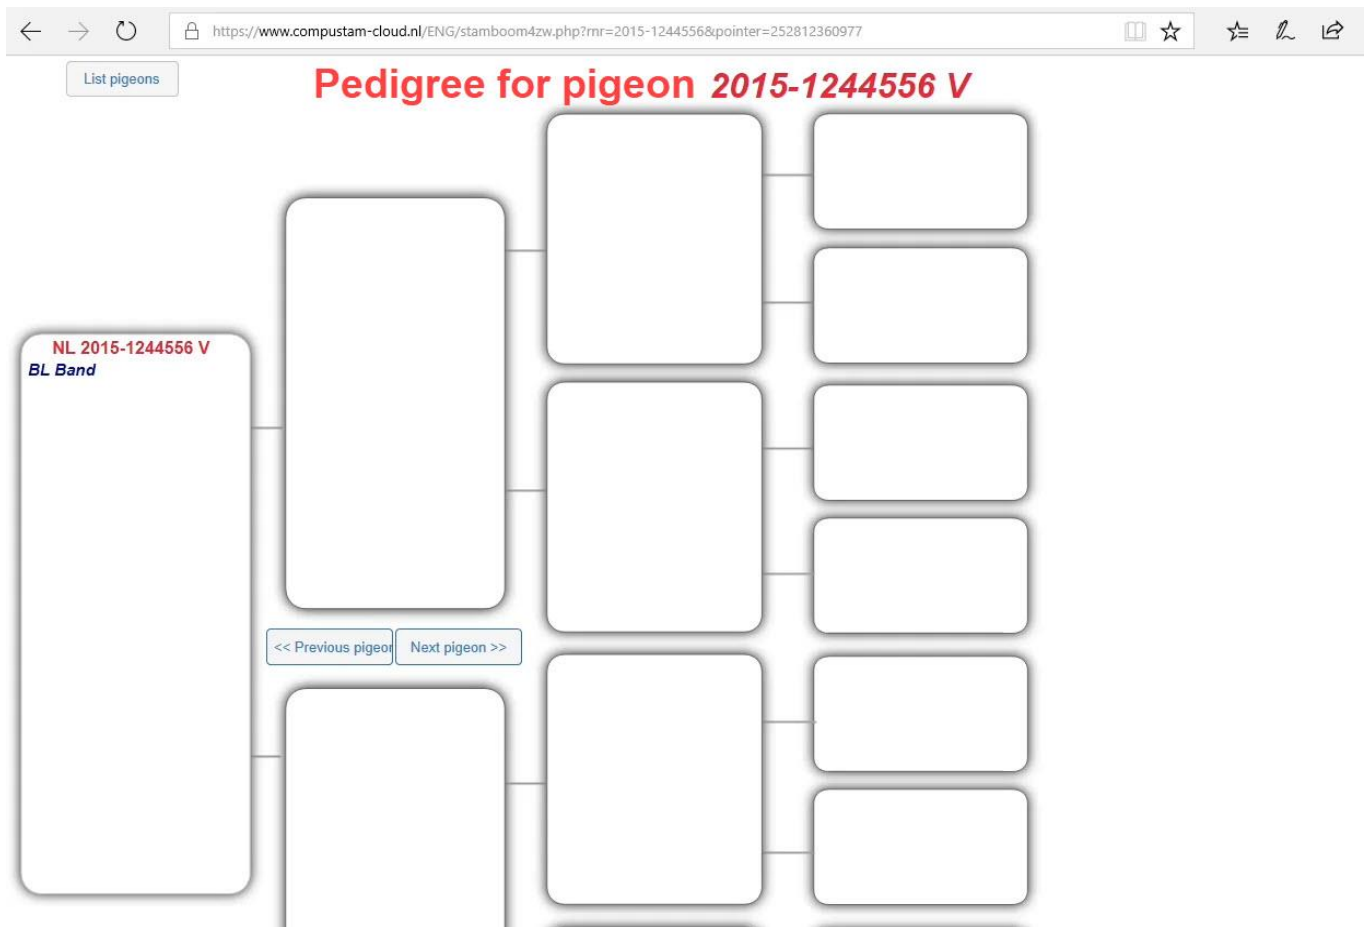

If you select pigeon code all pigeons that have the selected pigeon code are shown
each pigeon can have a maximum of 10 pigeon codes so it is possible that a certain pigeon or pigeons are on multiple pigeon codes

Upload family tree data to Compustam cloud

Note: the deletion and re-adding must be done with your Compustam version on your PC or laptop and then you need to upload your data again to Compustam Cloud

Compustam Cloud Pedigree

Now the card of the chosen pigeon is shown. If you click on overview you will return to Duiven File If you click back on pigeon you will return a pigeon and with pigeon you will advance a pigeon

Clickable Ring numbers

You can click on the ring numbers of the father mother grandfather ect. System immediately shows the pedigree of the clicked pigeon with the back button of your webbrowser to return to the previous pedigree

Compustam Cloud Pigeon data

Here you can see the pigeon data
the layout is the same as you compustam
version on your pc of laptop

If you do not know how to enter this information correctly, please take a look at our website manuals for the Compustam 2020 manual. This manual explains how to enter the data on the basis of each menu item.

If you want to view another pigeon (yet), please click on 'Pigeon Data'

Upload family tree data to Compustam cloud

Important note: If after uploading to Compustam Cloud you discover a pigeon that has incorrectly entered the ring number, **you can't change the ring number**. The entire ring number of the pigeon should be deleted in the Compustam version on your PC or laptop and added again to the correct ring number

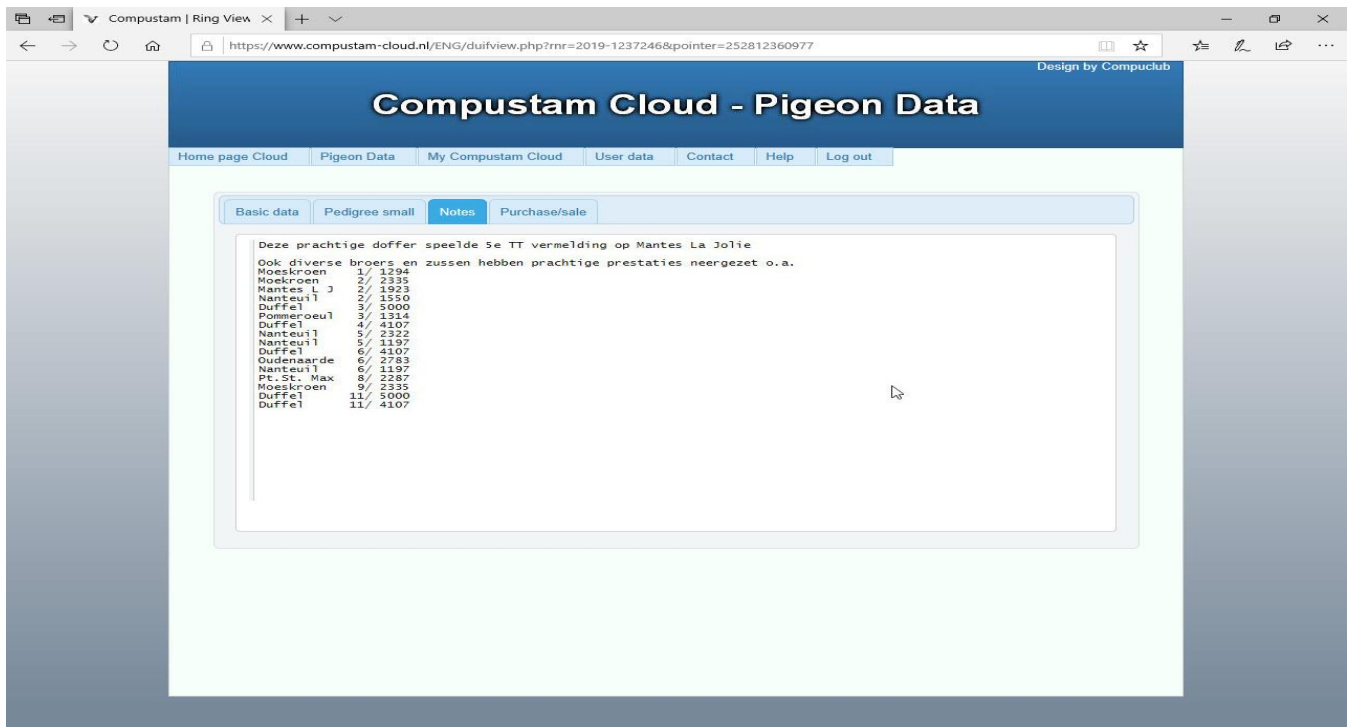

Note: the deletion and re-adding must be done with your Compustam version on your PC or laptop and then you need to upload your data again to Compustam Cloud

Compustam Cloud Pigeon data Pedigree small

If you click small on the pedigree tab, the pedigree of the pigeon is displayed for 4 generations

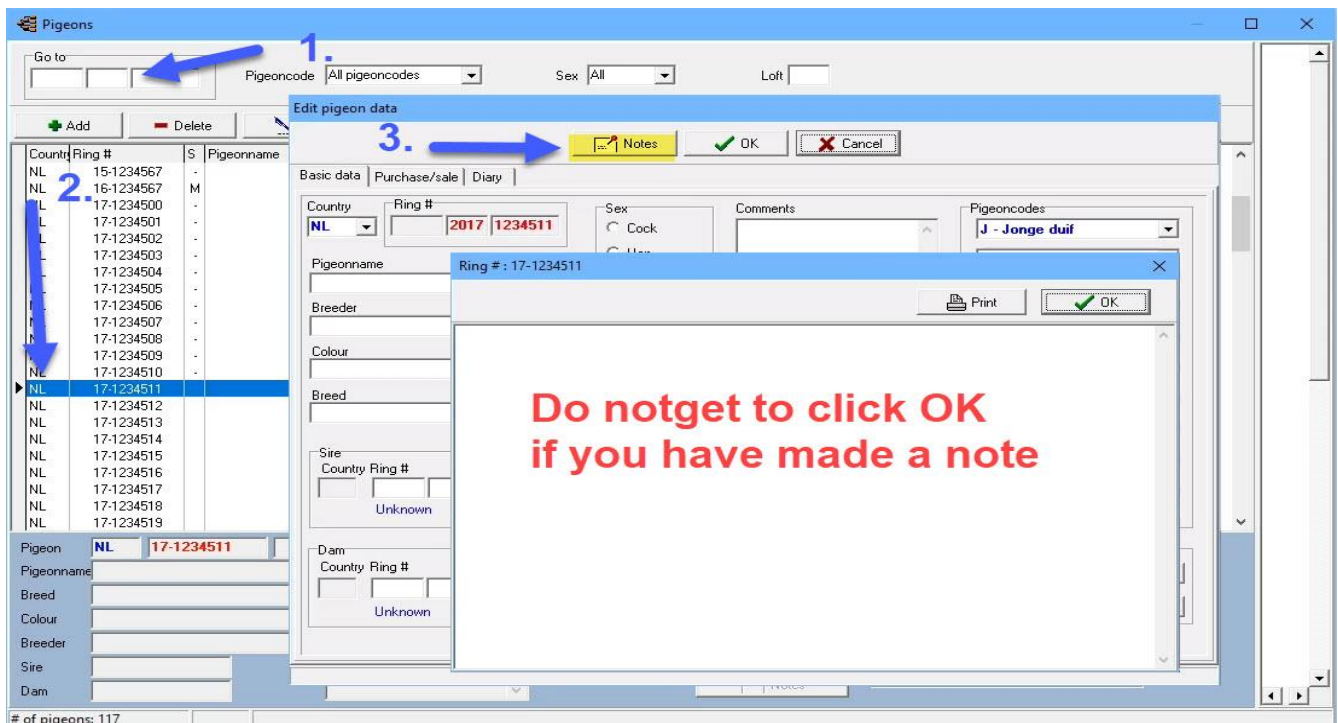

Compustam Cloud Pigeon Data notes

Here you can see the notes of the relevant pigeon

This data should be the same as the data in your Compustam version PC

these can be found at menu item **Pigeons-pigeon data**

1 Find the ring number on 2 double click on the relevant pigeon 3 click on notes

Compustam Cloud Pigeon data purchase-sale

The screenshot shows a web browser window with the URL <https://www.compustam-cloud.nl/ENG/duifview.php?rnr=2019-1237246&pointer=252812360977>. The page title is "Compustam Cloud - Pigeon Data". The navigation bar includes links: Home page Cloud, Pigeon Data, My Compustam Cloud, User data, Contact, Help, and Log out. Below the navigation bar, there are tabs: Basic data, Pedigree small, Notes, and Purchase/sale (which is selected). The main content area is divided into two columns. The left column is for "Pigeon purchase of" and the right column is for "Pigeon sold to". Each column contains input fields for: Purchase date, Purchase money, Purchase order, Purchase order code, Date of sale, Amount of sale, Order, and Order code.

Here are your purchase and sales data

With the purchase / sale tab you can immediately see where the pigeon has gone or the pigeon has come from. For good administration there is also the possibility to enter amount, date order number and order code.

My Compustam Cloud is a new component in Compustam Cloud in my Compustam Cloud
You can see a number of parts

My Security data (backups)

This is where your online backups of Your Compustam Data can be uploaded. A maximum of 3 backups can be uploaded to it

How to make your online backups, go to U Compustam (PC version) and go to menu item File Security data there are two menu options added in Compustam 2020 namely Security to Compustam-Cloud and Restore Cloud Security in the Compustam manual of 2020 this is described

My Registration file Compustam

Here you will find your data that you must use in your Compustam PC version of this data are Your registration and are listed in the Compustam pc version at menu item Load file registration file and then choose to register manually

My Installation Compustam

Here is the installation file of your Compustam pc version when you click on download it will be downloaded to your pc or laptop if you use Windows it will be put in your folder download. Look in the Compustam 2020 manual for installation and updating Compustam 2020 download version

My help files Compustam

Here you will find the latest versions of the Compustam and Compustam-Cloud manuals and a link to the website help Compustam where you can find tips and trucks manuals for virus scanners and Compustam

If you have the new version of Microsoft EDGE, adjust your [settings](#) first

Compustam Cloud Users Data

If you click on User data in the main screen of Compustam Cloud or on the menu bar, the following appears

The screenshot shows a web browser window with the URL <https://www.compustam-cloud.nl/ENG/gebruikersgegevens.php>. The page title is 'Compustam Cloud - User data'. The navigation bar includes links for 'Home page Cloud', 'Pigeon Data', 'My Compustam Cloud', 'User data', 'Contact', 'Help', and 'Log out'. The 'User data' tab is selected, showing a form with the following fields: 'Registered Name', 'First name', 'Last name', 'Town', and 'E-mail'. Each field has a corresponding text input box. Below these fields is a blue button labeled 'Opslaan' (Save).

With registered naam is the name on which your Compustam 2020 is registered

With screen name you will see the screen name you have chosen for first name Your first name with surname Your last name

at residence Your residence and by email Your email address

Note: most data is correct here if you have uploaded your data to Compustam Cloud

You can not change the data in Compustam Cloud this should be done in Compustam 2020 (standalone)

You can change all data in Compustam except for your registered name

Compustam Cloud Change login data

You can set a new user name and password at the tab to change your login details and do not forget to click on save or click on the button to send a new username and password. The new data will be sent by email.

The e-mail address known to us is the e-mail address you used to purchase a new or upgrade from or to Compustam (2020)

Fill in your name by email address your email address (tip use the email address you used when you purchased a new license (or upgrade to) Compustam 2020

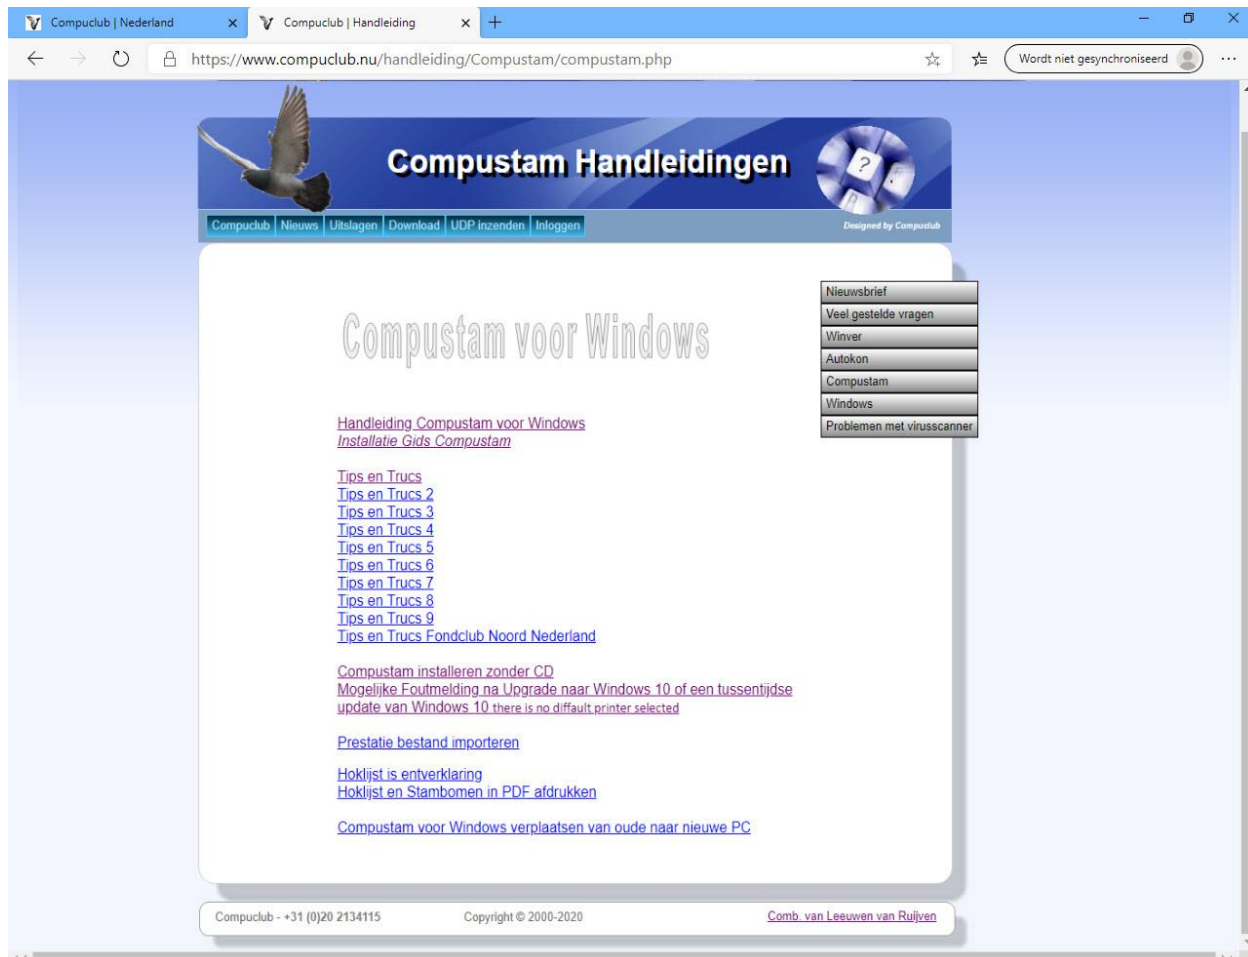

With member number your NPO member number

Compustam Cloud Help

If you are in the main screen of Compustam Cloud or on the menu bar

Click on help to go to the manuals website of Compuclub

Important to know before Uploading your data to Compustam Cloud your Compustam Cloud family tree data is overwritten each time

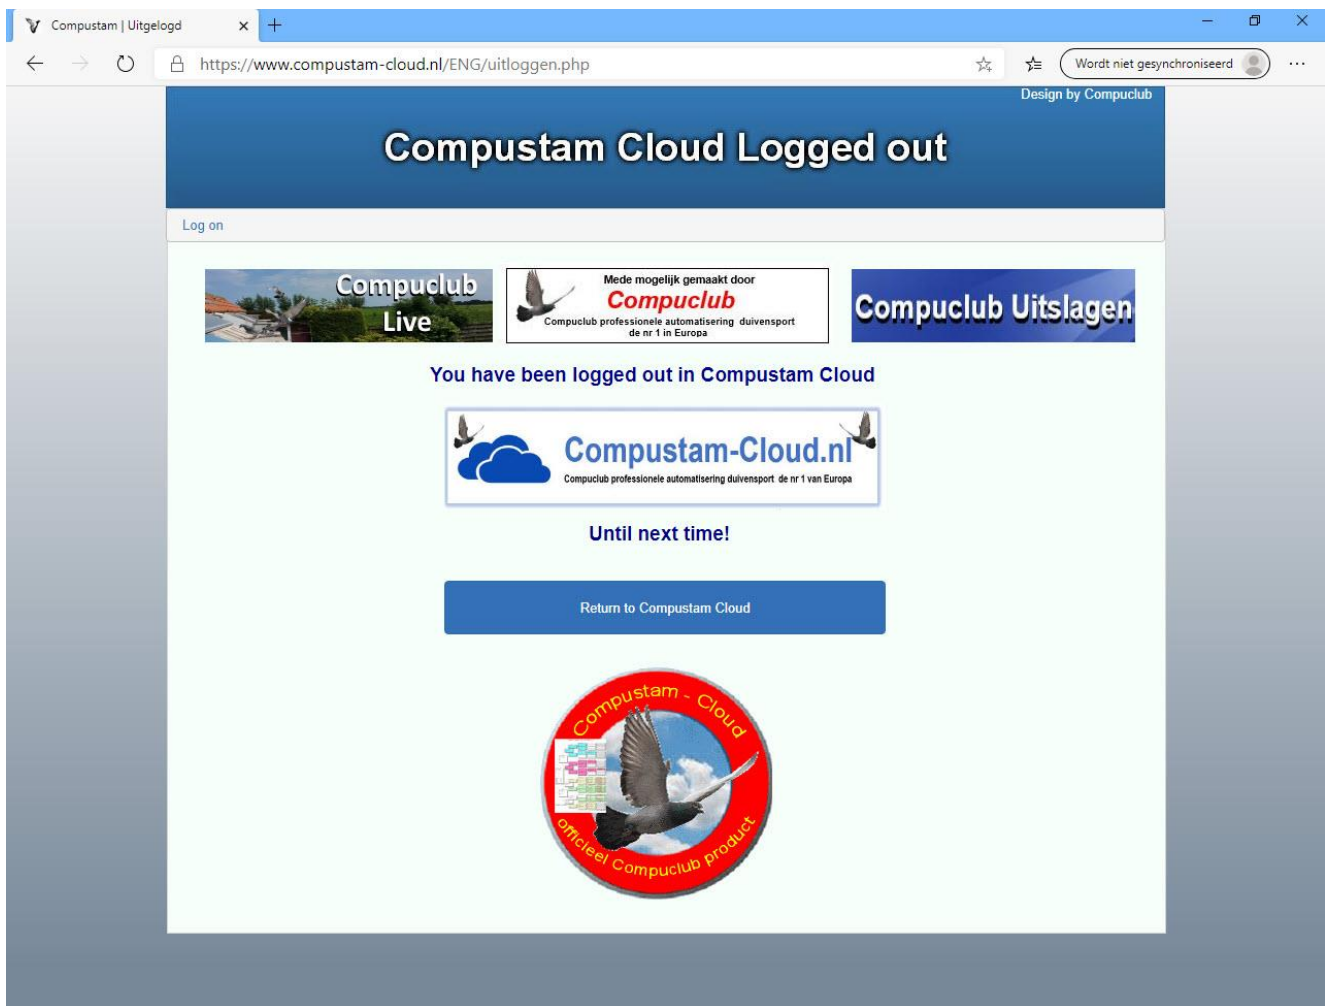

E.g. if you have 100 pigeons in Compustam-Cloud and you remove 5 pigeons from the pigeon data from Compustam 2020 and then upload again to Compustam Cloud

there are only 95 pigeons in Compustam Cloud that sounds logical, but you manage your pigeons in Compustam 2020 that is on your PC or laptop so money is really what you always make money backs up your data on eg a USB stick and keep your registration data correct Do not know how to make backups on a USB stick

Backing up or putting back on a USB stick How do I do that?

This is stated in the Compustam for Windows Manual

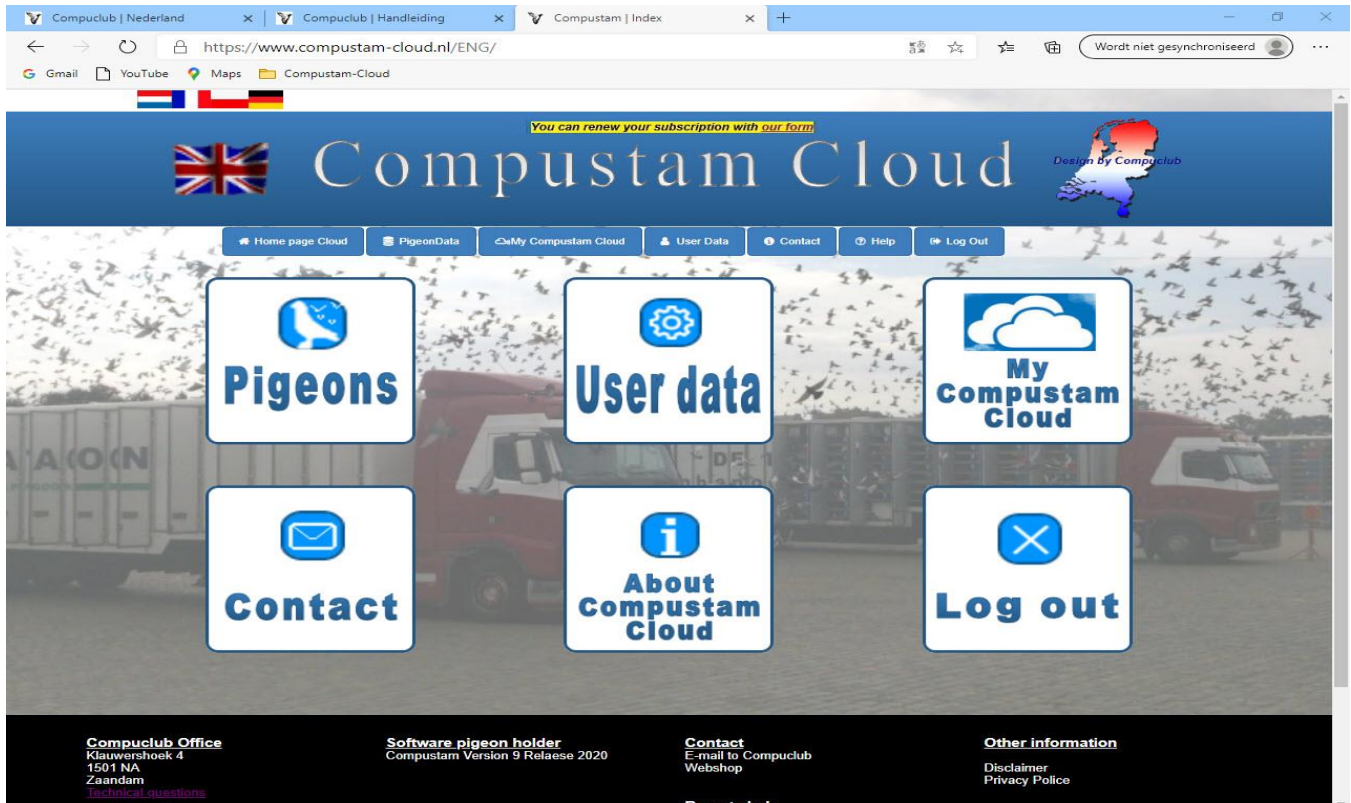

Compustam Cloud log out
